ICT

Grade 6

First Term 2024 / 2025

أ - ياسمين شعيب

## Put (✓) or ( X ) :

1. Cut, copy and paste commands are among the most used commands in word processing programs. ( )
2. You can use keywords to search within the database ( )
3. Through the font formatting commands, you can choose to copy or cut text in a word processing file. ( )
4. The Egyptian Knowledge Bank EKB is an example of a "public database" ( )
5. Specialized search engines help in searching for the required information ( )
6. You can use the Alexandria Library catalog through the library's website ( )
7. Apple computers run on Microsoft Windows only ( )
8. Apple iOS is considered an "open source" system ( )
9. The operating system is a program that controls the functions of the computer ( )
10. The robot operating system is a "closed source" program. ( )
11. The operating system manages computer programs and hardware ( )
12. The most common mobile operating system is Microsoft Windows ( )
13. HTML is the standard programming language used to create web pages ( )
14. To write the largest heading on a web page, we use the tag `<h1></h1>` ( )
15. Microsoft Windows is the standard programming language used to create web pages ( )
16. To make the font bold on a web page, the tag `<strong></strong>` ( )
17. Hypertext Markup Language tags consist of three parts. ( )
18. In a web page, to create a paragraph, we use the tag `<font size="1">` ( )
19. Artificial intelligence performs complex tasks that simulate the human element in thinking and performance. ( )
20. To write the largest heading on a web page, we use the tag `<h1></h1>` ( )
21. You can go to an ancient archaeological site and go back thousands of years, using Bluetooth technology. ( )
22. The operating system is a program that controls the functions of the computer. ( )
23. One of the most important goals of assistive technology is to improve a person's independence. ( )
24. To repeat a phrase or sentence in a word processing, choose Copy and Paste Text. ( )
25. Anxiety and depression are considered physical dangers of excessive electronic game play. ( )

26. To limit the dangers of electronic games, use personal information in the username. ( )
27. Anxiety and depression are considered psychological dangers of excessive electronic game play. ( )
28. If you encounter risks in electronic games, you should resort to your parents. ( )
29. Eye strain and back problems are considered security dangers of excessive electronic game play ( )
30. Large electronic game communities are overflowing with cyber bullies. ( )
31. Passwords that consist of at least eight letters, numbers, and random symbols or more are the most secure. ( )
32. The Data Protection Law requires companies to use strict security stands to protect their data. ( )
33. Multi-factor authentication requires only one way to identify you. ( )
34. Full encryption protects your information so that only you can access it ( )
35. Fingerprint authentication involves scanning your face using your camera. ( )
36. If your data is compromised, you should notify a parent or adult ( )
37. One of the safety precautions on the Internet is using antivirus programs ( )
38. Malware is considered one of the most dangerous cyber threats. ( )
39. One of the safety precautions on the Internet is communicating with people you don't know ( )
40. Scareware is known as a type of friendly software. ( )
41. One of the safety precautions on the Internet is sharing your personal information online. ( )
42. Using unsecured Wi-Fi networks exposes you to malware threats. ( )
43. Intellectual rights are an invention, innovation, or idea of a person that is protected by law from being copied by another person. ( )
44. The stock exchange is known as a knowledge bank in which members exchange their ideas ( )
45. "Creative Commons" are works that their creator has granted permission to share. ( )
46. Electronic financial trading provides investors with independence and easy-to-use alternatives ( )
47. Works are considered public domain if the author has been dead for at least 50 years ( )
48. The Egyptian Stock Exchange provides citizens with the opportunity to invest in various sectors ( )
49. Cloud computing allows the user to access files and data anytime and ( )

- anywhere with ease and convenience.
50. One of the disadvantages of using cloud computing is providing backup copies of your files. ( )
51. Remote servers enable users to access their files over the Internet. ( )
52. Google is a cloud computing service provider ( )
53. Microsoft 365 is a cloud computing service provider through the OneDrive application. ( )
54. One of the advantages of using cloud computing is that there is no need for a constant internet connection ( )
55. Microsoft 365 is considered one of the most popular programs available for dealing with cloud computing applications ( )
56. The Outlook email platform allows you to store and share your files, and access them from any device ( )
57. Microsoft 365 provides the email platform Excel. ( )
58. The OneDrive platform is easy to use and allows you to store and share your files. ( )
59. Microsoft 365 provides the OneDrive storage application ( )
60. You cannot upload your files to OneDrive ( )

### **Choose the correct answers:**

1- ..... performs complex tasks that simulate the human element in thinking and performance

- A- Artificial intelligence      B- Switches  
 C- Digital fingerprint      D- Wired networks

2- Types of wireless networks are connected by .....

- A- Ports      B- Wi-Fi  
 C- Modem      D- Switches-

3- ..... is used to convert the signal received from the ISP into a digital signal

- A- Modem      B- Ports  
 C- Wi-Fi      D- Switches

4- The Internet Service Provider is known by the abbreviation .....

- A- ISP      B- USB  
 C- GPR      D- GPS

- 5- The technology of .... helps to imitate sounds by providing them with the tone of a natural human voice
- A-Artificial Intelligence      B-Headphones  
 C-Bluetooth      D-Assistive Technology
- 6- The local area network (LAN) connected by a connecting cable between computers is considered one of the types of networks .....
- A-Wired      B-Wireless  
 C-Wide-range      D-Wi-fi
- 7- The cables and wires in wired networks are connected to places called .....
- A- Ports      B- Wi-Fi  
 C- Modem -      D- Switches
- 8- The .... helps to send data to a specific device over the network easily and smoothly.
- A- Switches      B- Ports  
 C- Wi-Fi      D- Mouse
- 9- .... is used as 3D environment that allows you to deal with what you see and hear as if it were real
- A-Virtual reality      B-Converters  
 C-Digital footprint      D-Assistive technology
- 10- .... technology is used to open the phone using the facial recognition system.
- A-Assistive technology      B-Artificial intelligence  
 C-Virtual reality      D-Converters
- 11-.... technology helps in teaching in an interactive way and consolidating information.
- A- Digital footprint      B- Transformers  
 C- Modem      D- Augmented reality
- 12- Headset are worn to deal with .... technology
- A- Virtual reality      B- Digital footprint  
 C- Hacking      D- Scanner
- 13- You can see atoms and insects larger than you using .... technology
- A- Virtual reality      B- Transformers  
 C- Modem      D- Router

14- .... technology improves the lives of people with disabilities.

- |                |            |
|----------------|------------|
| A- Assistive   | B- Old     |
| C- Traditional | D- Complex |

15- Technology is the latest and most advanced version of services and products.

- |                 |                |
|-----------------|----------------|
| A- Cutting edge | B- Old         |
| C- Past         | C- Traditional |

16- The machine ..... helps the visually impaired to read.

- |                         |                   |
|-------------------------|-------------------|
| A- Scanning and reading | B- Prosthetic leg |
| C- Printing             | D- Photography    |

17- Technology has helped ..... people with disabilities to enlarge the screen and audio and convert speech to text and vice versa

- |                |                         |
|----------------|-------------------------|
| A- Traditional | B- Assistive technology |
| C- Past        | D- Hacking              |

18- Helped ..... in the instant translation of the sign of deaf people.

- |                                |                 |
|--------------------------------|-----------------|
| A- Screen enlargement programs | B- Bell ball    |
| C- Prosthetic leg              | D- Smart gloves |

19- Elements of evaluating good products .....

- |                               |                          |
|-------------------------------|--------------------------|
| A- High cost                  | B- Poor manufacturing    |
| C- Ability to find a solution | D- Manufacturing country |

20- Most important goals of assistive technology .....

- |                          |                                     |
|--------------------------|-------------------------------------|
| A- Difficulty of use     | B- Improving someone's independence |
| C- Not useful for others | D- Difficulty of access             |

21- It is a collection of information, usually stored in a computer system.

- |                    |                          |
|--------------------|--------------------------|
| A- Paper books.    | B- Databases.            |
| C- Search engines. | D- Digital search tools. |

22- It is a database, which includes all the sources and items contained in the library.

- |                     |                  |
|---------------------|------------------|
| A- Library catalog. | B- Internet.     |
| C- Paint program.   | D- Search engine |

23- Operating system ..... It is an open source program used to build robotic applications.

- |                      |                                  |
|----------------------|----------------------------------|
| A- Microsoft Windows | B- Robot Operating System - ROS. |
| C- Android.          | D- Apple iOS.                    |

- A- Share your personal information on the Internet.**
  - B- Use secure Internet browsers.**
  - C- Communicate with people you don't know.**
  - D- Use weak passwords.**

**35.....includes written, visual, audio, video, and materials from the Internet.**

- A- Malware.**      **B- Electronic financial trading.**  
**C- Copyright.**      **D- Programming languages**

36..... are online applications that provide guidance and financial services.

- A- Egyptian Knowledge Bank.** **B- Advisor- robots.**  
**C- Stock exchange.** **D- Financial brokers**

37.....is an on-demand technology that allows data and programs to be stored and accessed through remote servers over the Internet.

- |                            |                            |
|----------------------------|----------------------------|
| <b>A- Cloud computing.</b> | <b>B- Hard disks.</b>      |
| <b>C- Copyright.</b>       | <b>D- Office software.</b> |

**38. The disadvantages of using cloud computing are .....**

- A- Improved storage capacity on devices.
  - B- Ability to access your files from multiple devices.
  - C- Possibility of data breaches.
  - D- Ability to share files with authorized users.

**39– Microsoft 365 provides a set of productivity applications, such as.....**

- |             |                    |
|-------------|--------------------|
| A- HTML     | B- Microsoft Teams |
| C- Internet | D- Viruses         |

**40 – The platform allows you ..... Store and share your files.**

- A- Calculator
  - B- Paint
  - C- help
  - D- OneDrive

40-..... requires two methods at least to identify you.

- A- Passwords
  - B- Full encryption
  - C- Fingerprint authentication
  - D- Multi-factor authentication

41-..... It is an on-demand technology that allows data and programs to be stored

and accessed through remote servers over the Internet.

- |                    |                    |
|--------------------|--------------------|
| A- Cloud computing | B- Hard disks      |
| C- Copyright       | D- Office software |

**First Term 2024 / 2025**

## Put (✓) or ( X ) :

1. Cut, copy and paste commands are among the most used commands in word processing programs. ( ✓ )
2. You can use keywords to search within the database ( ✓ )
3. Through the font formatting commands, you can choose to copy or cut text in a word processing file. ( x )
4. The Egyptian Knowledge Bank EKB is an example of a "public database" ( ✓ )
5. Specialized search engines help in searching for the required information ( ✓ )
6. You can use the Alexandria Library catalog through the library's website ( ✓ )
7. Apple computers run on Microsoft Windows only ( x )
8. Apple iOS is considered an "open source" system ( x )
9. The operating system is a program that controls the functions of the computer ( ✓ )
10. The robot operating system is a "closed source" program. ( x )
11. The operating system manages computer programs and hardware ( ✓ )
12. The most common mobile operating system is Microsoft Windows ( x )
13. HTML is the standard programming language used to create web pages ( ✓ )
14. To write the largest heading on a web page, we use the tag <h6></h6> ( x )
15. Microsoft Windows is the standard programming language used to create web pages ( x )
16. To make the font bold on a web page, the tag <strong></strong> ( ✓ )
17. Hypertext Markup Language tags consist of three parts. ( ✓ )
18. In a web page, to create a paragraph, we use the tag <font size = "1"> ( x )
19. Artificial intelligence performs complex tasks that simulate the human element in thinking and performance. ( ✓ )
20. To write the largest heading on a web page, we use the tag <h6></h6> ( x )
21. You can go to an ancient archaeological site and go back thousands of years, using Bluetooth technology. ( x )
22. The operating system is a program that controls the functions of the computer. ( ✓ )

23. One of the most important goals of assistive technology is to improve a person's independence. ( ✓ )
24. To repeat a phrase or sentence in a word processing, choose Copy and Paste Text. ( ✓ )
25. Anxiety and depression are considered physical dangers of excessive electronic game play. ( x )
26. To limit the dangers of electronic games, use personal information in the username. ( x )
27. Anxiety and depression are considered psychological dangers of excessive electronic game play. ( ✓ )
28. If you encounter risks in electronic games, you should resort to your parents. ( ✓ )
29. Eye strain and back problems are considered security dangers of excessive electronic game play. ( ✓ )
30. Large electronic game communities are overflowing with cyber bullies. ( ✓ )
31. Passwords that consist of at least eight letters, numbers, and random symbols or more are the most secure. ( ✓ )
32. The Data Protection Law requires companies to use strict security stands to protect their data. ( ✓ )
33. Multi-factor authentication requires only one way to identify you. ( x )
34. Full encryption protects your information so that only you can access it. ( ✓ )
35. Fingerprint authentication involves scanning your face using your camera. ( x )
36. If your data is compromised, you should notify a parent or adult. ( ✓ )
37. One of the safety precautions on the Internet is using antivirus programs. ( ✓ )
38. Malware is considered one of the most dangerous cyber threats. ( ✓ )
39. One of the safety precautions on the Internet is communicating with people you don't know. ( x )
40. Scareware is known as a type of friendly software. ( x )
41. One of the safety precautions on the Internet is sharing your personal ( x )

information online.

42. Using unsecured Wi-Fi networks exposes you to malware threats.

(✓)

43. Intellectual rights are an invention, innovation, or idea of a person that is protected by law from being copied by another person.

(✓)

44. The stock exchange is known as a knowledge bank in which members exchange their ideas

(✗)

45. "Creative Commons" are works that their creator has granted permission to share.

(✓)

46. Electronic financial trading provides investors with independence and easy-to-use alternatives

(✓)

47. Works are considered public domain if the author has been dead for at least 50 years

(✓)

48. The Egyptian Stock Exchange provides citizens with the opportunity to invest in various sectors

(✓)

49. Cloud computing allows the user to access files and data anytime and anywhere with ease and convenience.

(✓)

50. One of the disadvantages of using cloud computing is providing backup copies of your files.

(✗)

51. Remote servers enable users to access their files over the Internet.

(✓)

52. Google is a cloud computing service provider

(✓)

53. Microsoft 365 is a cloud computing service provider through the OneDrive application.

(✓)

54. One of the advantages of using cloud computing is that there is no need for a constant internet connection

(✗)

55. Microsoft 365 is considered one of the most popular programs available for dealing with cloud computing applications

(✓)

56. The Outlook email platform allows you to store and share your files, and access them from any device

(✗)

57. Microsoft 365 provides the email platform Excel.

(✗)

58. The OneDrive platform is easy to use and allows you to store and share your files.

(✓)

59. Microsoft 365 provides the OneDrive storage application

(✓)

60. You cannot upload your files to OneDrive

(✗)

## Choose the correct answers:

1- .... performs complex tasks that simulate the human element in thinking and performance

- A- Artificial intelligence**      B- Switches  
**C- Digital fingerprint**      D- Wired networks

2- Types of wireless networks are connected by .....

- A- Ports**      **B- Wi-Fi**  
**C- Modem**      **D- Switches-**

3- .... is used to convert the signal received from the ISP into a digital signal

- A- Modem**      B- Ports  
**C- Wi-Fi**      D- Switches

4- The Internet Service Provider is known by the abbreviation .....

- A- ISP**      B- USB  
**C- GPR**      D- GPS

5- The technology of .... helps to imitate sounds by providing them with the tone of a natural human voice

- A-Artificial Intelligence**      B-Headphones  
**C-Bluetooth**      D-Assistive Technology

6- The local area network (LAN) connected by a connecting cable between computers is considered one of the types of networks .....

- A-Wired**      B-Wireless  
**C-Wide-range**      D-Wi-fi

7- The cables and wires in wired networks are connected to places called .....

- A- Ports**      B- Wi-Fi  
**C- Modem -**      D- Switches

8- The .... helps to send data to a specific device over the network easily and smoothly.

- A- Switches**      B- Ports  
**C- Wi-Fi**      D- Mouse

9- .... is used as 3D environment that allows you to deal with what you see and hear as if it were real

- A-Virtual reality**      B-Converters  
**C-Digital footprint**      D-Assistive technology

10- ..... technology is used to open the phone using the facial recognition system.

- A-Assistive technology      **B-Artificial intelligence**  
 C-Virtual reality              D-Converters

11-.... technology helps in teaching in an interactive way and consolidating information.

- A- Digital footprint              B- Transformers  
**D- Augmented reality**

C- Modem

12- Headset are worn to deal with .... technology

- A- Virtual reality**              B- Digital footprint  
 C- Hacking                      D- Scanner

13- You can see atoms and insects larger than you using .... technology

- A- Virtual reality**              B- Transformers  
 C- Modem                      D- Router

14- .... technology improves the lives of people with disabilities.

- A- Assistive**                      B- Old  
 C- Traditional                      D- Complex

15- Technology is the latest and most advanced version of services and products.

- A- Cutting edge**                      B- Old  
 C- Past                              C- Traditional

16- The machine ..... helps the visually impaired to read.

- A- Scanning and reading**              B- Prosthetic leg  
 C- Printing                              D- Photography

17- Technology has helped ..... people with disabilities to enlarge the screen and audio and convert speech to text and vice versa

- A- Traditional                      **B- Assistive technology**  
 C- Past                              D- Hacking

18- Helped ..... in the instant translation of the sign of deaf people.

- A- Screen enlargement programs      B- Bell ball  
 C- Prosthetic leg                      **D- Smart gloves**

19- Elements of evaluating good products .....

- A- High cost                              B- Poor manufacturing  
**C- Ability to find a solution**              D- Manufacturing country

20- Most important goals of assistive technology .....

- |                          |   |
|--------------------------|---|
| A- Difficulty of use     | <b><u>B- Improving someone's independence</u></b> |
| C- Not useful for others | D- Difficulty of access                           |

21- It is a collection of information, usually stored in a computer system.

- |                    |                             |
|--------------------|-----------------------------|
| A- Paper books.    | <b><u>B- Databases.</u></b> |
| C- Search engines. | D- Digital search tools.    |

22- It is a database, which includes all the sources and items contained in the library.

- |                                   |              |
|-----------------------------------|--------------|
| <b><u>A- Library catalog.</u></b> | B- Internet. |
|-----------------------------------|--------------|

- |                   |                  |
|-------------------|------------------|
| C- Paint program. | D- Search engine |
|-------------------|------------------|

23- Operating system ..... It is an open source program used to build robotic applications.

- |                      |  |
|----------------------|--|
| A- Microsoft Windows | <b><u>B- Robot Operating System - ROS.</u></b> |
| C- Android.          | D- Apple iOS.                                  |

24- Programmers use the ..... Hypertext Markup Language to create web pages.

- |                       |              |
|-----------------------|--------------|
| A- Automative.        | B- macOS.    |
| <b><u>C- HTML</u></b> | D- Apple iOS |

25- ..... is the standard programming language used to create web pages.

- |                       |                        |
|-----------------------|------------------------|
| A- Microsoft Windows. | B- Word.               |
| C- Android.           | <b><u>D- HTML.</u></b> |

26- The tag ..... is used to create a paragraph.

- |                            |                                 |
|----------------------------|---------------------------------|
| <b><u>A- &lt;p&gt;</u></b> | B- <h1>                         |
| C- <i>                     | <b><u>D- &lt;strong&gt;</u></b> |

27- One of the goals of technology is to meet the needs of people with disabilities.

- |                             |                |
|-----------------------------|----------------|
| <b><u>A- Assistance</u></b> | B- Traditional |
| C- Digital footprint        | D- Hacking     |

28- ..... is the standard programming language used to create web pages.

- |                       |                        |
|-----------------------|------------------------|
| A- Microsoft Windows. | B- Word.               |
| C- Android.           | <b><u>D- HTML.</u></b> |

29- Some electronic games generate feelings of aggression in some people and this is one of the ..... dangers.

- |                                 |                   |
|---------------------------------|-------------------|
| A- Physical.                    | B- Security.      |
| <b><u>C- Psychological.</u></b> | D- Environmental. |

30- Security dangers of electronic games .....

- A- Eye strain.
- B- Weight gain.
- C- Feelings of anxiety and depression.

**D- Allowing strangers to access your name and email.**

31- ..... requires at least two ways to identify yourself.

- A- Passwords.
- B- Full encryption.
- C- Fingerprint.

**D- Multi-factor authentication.**

32- In facial recognition, the user must use ..... only to unlock his device or the applications in it.

**A- Face.**

B- Finger.

C- Password.

D- Voice.

33- Know ..... as a type of malware.

**A- Scareware.**

B- Office software.

C- Operating systems.

D- Impersonation.

34- Internet safety precautions

A- Share your personal information on the Internet.

**B- Use secure Internet browsers.**

C- Communicate with people you don't know.

D- Use weak passwords.

35..... includes written, visual, audio, video, and materials from the Internet.

A- Malware.

B- Electronic financial trading.

**C- Copyright.**

D- Programming languages

36..... are online applications that provide guidance and financial services.

A- Egyptian Knowledge Bank.

**B- Advisor - robots.**

C- Stock exchange.

D- Financial brokers

37.....is an on-demand technology that allows data and programs to be stored and accessed through remote servers over the Internet.

**A- Cloud computing.**

B- Hard disks.

C- Copyright.

D- Office software.

38. The disadvantages of using cloud computing are .....

A- Improved storage capacity on devices.

B- Ability to access your files from multiple devices.

**C- Possibility of data breaches.**

D- Ability to share files with authorized users.

39- Microsoft 365 provides a set of productivity applications, such as.....

A- HTML

**B- Microsoft Teams**
